## History

I'm told I got my first 2 ½ mph electric car when I was 10 months old. Just before my second birthday I got a 5 mph electric car. At Christmas before my third birthday I got my first gas powered go-kart, and drove that go-kart every day after my grandpa got home from work. At 5 ½ years old my grandpa signed me up for quarter midgets and had a ball since. During the summer of 2011 I tried a Micro and a Ford Focus and loved both. Ford Focus pavement car is my main focus for this upcoming year and the Micro for local racing in the dirt.
